Preshen Govender

Software Developer

PROFILE

I am an efficient Student pursuing an IIE Bachelor of Computer and Information Sciences in Application eager to contribute to team success through hard work, attention to detail and excellent organizational skills. Well-versed in Java with strong understanding of C#. Successful in quickly building skills, self-teaching and acquiring new knowledge. Motivated to learn, grow and excel in a growth-orientated company. Self-motivated and confident individual who is versatile and conversant in all aspects of computer coding, business operation and development.

EXPERIENCE

2023-Present

Dipar System

FULL STACK DEVELOPER INTER

As a Full Stack Intern at Dipar System, I had the opportunity to hone my skills in Angular, C#, and SQL while actively contributing to the development of web applications. During this internship, I gained hands-on experience in both front-end and back-end development, working on a wide range of projects. My responsibilities included:

- Collaborating with a team of developers to create dynamic and user-friendly web applications using Angular for the front-end.
- Building robust server-side components and APIs using C# to ensure seamless communication between the front-end and database.
- Learning best practices in software development, version control, and agile methodologies.

My six month internship at Dipar Software Company allowed me to apply theoretical knowledge to real-world software development, enhancing my skills and proficiency in the specified technologies and methodologies. It was a valuable experience that has greatly contributed to my professional growth in the field of full-stack development.

2022 - 2023

Thirst

BARTENDER

During my tenure as a Bartender, I gained extensive experience in the art of mixology and provided exceptional customer service. My responsibilities included:

- Preparing and serving a wide range of alcoholic and non-alcoholic beverages, including cocktails, beers, and wines, with precision and creativity.
- Maintaining a well-organized bar area, ensuring that it was fully stocked with all necessary ingredients, garnishes, and equipment.
- Collaborating with bar staff and management to develop and update drink menus, as well as participating in staff training and development.

2020 - 2021

CMG Engineering

INTERNAL SALES

As an Internal Sales Representative at CMG, I played a vital role in driving revenue and ensuring the smooth operation of the company's wholesale tool business. My responsibilities encompassed a wide range of sales-related tasks, including:

- Effectively communicating with clients and potential customers to understand their tool needs and provide tailored solutions.
- Preparing and delivering quotes, proposals, and product information to clients, showcasing our range of wholesale tools and their benefits.
- Maintaining accurate and up-to-date records of sales activities, customer interactions, and inventory levels using company CRM and inventory management systems.
